

Cleaner, Steam, Press

NSN: 4940-01-025-9856

LIN: C32887

TM: Varies based upon Make/Model

System Description

This Steam Cleaner has cleaning power of 3500 pounds per square inch and 5.2 gallons per minute. This trailer mounted diesel-powered hot water pressure washer is self-contained with no electricity required. This Steam Cleaner has its own electric generator, drain automatically on shutdown, and can extract water from sumps, ponds, and tanks. The water tank holds 330 gallons.

System Mission

The cleaners provide hot and cold-water rinses to remove dirt, grease, and heavy oil deposits. The cleaners are designed for use with a liquid self emulsion cleaning compound conforming to EPA regulations.

Reset Responsibility

Unit

Reset Location

This system is not currently in reset.

This system is not currently in reset.

Reset Type

Reset Work (Field Level) - Work performed to correct equipment faults that are performed at the ORG/DS level; performed by unit level soldiers, augmented by contractor as required.

Reset Strategy

All steam cleaners are field level repairable. This is a local purchase, non-stocked item. Units are now encouraged to purchase UL-1776 certified steam cleaners or pressure washers directly from vendors selling such machines or to go through GSA Federal Supply Schedule 56, SIN 253-48A, found [here](#).
